

Pt100 / Pt1000 bolt-on and screw-in sensors.

Pt100 / Pt1000 bolt-on sensors for different applications.

- Flexible mounting
- Bolt-on sensors for M6 and M10 screws.
- Screw-in sensors in M5 and M6.
- Temperature measurement of -30...180 °C.

For complex applications with different requirements

Every application has its own requirements as regards the temperature sensors to be used. Criteria such as housing material or mechanical design are as important as the connection to control monitors, plcs or AS-i modules. The housings and materials of the new screw-in and bolt-on sensors of ifm electronic have been designed for a wide range of applications.

TS522A and TS502A for ATEX applications

In addition, the bolt-on sensors TS522A and TS502A have the ATEX approval to group II, category 3D/3G.
